## GET TO KNOW US

Join the journey and get an aerial perspective. We will share with you our approach, experience and beyond of all perfect views.

It is the passion and engaged human being that stand for every single professionally maintained airplane at AMC Aviation since 2008. Every day we aim to be the leader at complex services dedicated to private aviation sector.

AMC Aviation proudly emerges with people for whom meticulous customer service and perfect piloting skills are core values. Work with passion is being shared by current owners and employees with seamless attention.

# LET US MANAGE YOUR AIRPLANE

Companies, private owners and flying legends let us manage their airplanes as they feel our job is our beloved passion and every single plane under our wings is maintained with precise care and highest standards.

## **CAMO - Continuing Airworthiness Management Organization**

With over 7 years of holding CAMO Certificate and over 20 aircraft currently managed, AMC Aviation provides top-quality CAMO services for its clients in Poland and other countries of the EU. A team of well-experienced airworthiness engineers provide a 24/7 support for the aircraft owners in all CAMO-related issues and fastest 'release-to-service' actions. We are certified to cover the following aircraft types as: Bombardier: Learjet 60, Learjet 75; Cessna: Mustang, Citation Jet, Caravan; Pilatus PC 12; Beechcraft: C90, 390; Gulfstream G150, G280; Embraer Phenom 300 and helicopters: Bell 427, Augusta A109, BO 105.

## **AOG - Aircraft on Ground**

AMC Aviation's PART-145 Organization offers services of a mobile team of well-experienced aircraft technicians holding licenses for a wide range of aircraft types. With a 24/7 availability and fast response time, we provide fastest solutions for various technical problems.

## **Maintenance**

We provide base and line maintenance for many aircraft types ranging from turbo-props to mid-size jets. Our aircraft technicians are well-trained and hold a number of licenses which ensures top quality aircraft servicing. Together with a very competent logistics and CAMO department, AMC Aviation offers complete solutions for both scheduled and unscheduled aircraft maintenance. We service the following aircraft types: Bombardier Global, Challenger 604, 300, Learjet 60 and 75; Cessna XLS, Citation Jet CJ1, CJ2, Caravan C 208; Gulfstream G280; Beechcraft C90, B300; Pilatus PC 12 and helicopters: Bell 427 and 430.

## **Hangar**

We offer hangar space at Warsaw-Modlin airport (IATA: WMI, ICAO: EPMO) for both long- and short-term aircraft hangaring. Our hangar is heated, recently renovated and offers a total space of 3600 sqm with a 7,7m height, with easy 24/7 access and monitoring systems.

## **Aircraft deliveries**

AMC Aviation is the biggest Polish company specializing in aircraft delivery and provide the best in class service implementing your plane into operations. Our engineers will take precise care of your new or pre-owned airplane including paperwork required to make it fully ready to fly for you.

# FLY WHERE YOU DESIRE

Individual charter flights  
open up a whole new  
world of opportunities  
beneath your feet.  
Simply look outside  
of the window.

Private flying is the most comfortable and time effective way of travelling to various destinations. At AMC Aviation you can pick among many of planes and obtain an offer that suits your plans best whether you travel for business or leisure purposes.

## FEEL SAFE

Airplanes have no secrets for us. Our long experience translates to outstanding safety standards by far exceeding sector levels.

Safety at AMC Aviation is regarded the highest and uncompromised priority. We have obtained AOC certificate confirming fulfilment of all requirements to assure safety for air operations. We meet same standards as all well-known and appreciated commercial operators in the world. The experience of our crew and ongoing trainings at world most renowned training facilities will make you feel comfortable and at good hands. Our goal is to create best possible flight experience with highest safety levels in class. AMC Aviation cares about every detail. Seat back, relax and enjoy the view.

# CHOOSE YOUR OPTION

From small turboprop planes to best-in-class mid-size jets. Here you will find what will best suit your mission according to number of your counterparts and destination.

plane	PAX seats	range	
<b>Gulfstream G280</b>	9	6667 km	Enjoy the quietest cabin in super mid sector with five full beds on longer flights and huge luggage space. Treat yourself well.
<b>Learjet 60XR</b>	8	4454 km	Go far with its range up to 6h non stop flight, get warm dish onboard and relax.
<b>Learjet 75</b>	9	3700 km	Choose the fastest climb rate in class and comfort of two club seatings for up to 8. Be amazed by how much bags you can take with you.

# CHOOSE YOUR OPTION

Our fleet meets the requirements of every destination you choose: either you fly to a mountain land strip or international airport. Decide for an airplane that makes your travel most effective.

plane	PAX seats	range	
<b>Citation Jet</b>	6	2400 km	Take a short ride with great speed and optimal costs for this choice. Get around easily and be back home for dinner.
<b>Pilatus PC12</b>	8	3417 km	Take off and land on short stripes even on grassy fields. Get even closer to your destination. Land near your golf course, ski resort or where your boat is.
<b>KingAir 90A</b>	6	2148 km	Keep your expenses under control and travel at low price and decent speed. Fly and enjoy good time.

# WE ARE LOOKING FORWARD TO SEE YOU

We are here to assist  
you and help accomplish  
your goals.

Our employees stay  
at your disposal 24/7.
