

# CITATION LATITUDE

2700 NM  
5000 km

## The mid-size business jet

With a range of over five hours, this mid-size flat-floor aircraft offers an ergonomic and spacious cabin which perfectly combines working and relaxing space for up to nine passengers.

The aircraft also offers a very large baggage compartment.

Thanks to its short field performances, the Citation Latitude can use restrictive airports with short runways, thus bring our passengers closest to their final destination and consistently reduce their travel time.

In addition, it is certified to land at St. Tropez-La Môle and London City airports, a very attractive feature for business and leisure travellers.

A large refreshment centre is available for hot and cold drinks as well as cold finger-food.

Passengers 9

Crew 2 pilots

Satellite phone

Internet & iPad's Pro with Bose noise canceling headset

Light meal service

**Baggage capacity** 7  
(standard size suitcase 75 x 53 x 31 cm)
