AIR-DYNAMIC
ANYWHERE. ANYTIME.

Club
St.X

The smartest Swiss way to travel in Europe

From Lugano and Locarno easily connected to all the main European destinations, in a simple, fast and innovative way.

This is what the **St.X Club** offers you today: a smart formula to reach your destinations stress free, starting from **Lugano** or **Locarno**, without wasting time and optimizing travel time. **St.X operates the Pilatus PC-12 NG**, an aircraft that is comfortable using international airports as well as small airfields. Due to the unique Pilatus PC-12 NG performances and features, **you can access 3 times more airfields than a traditional business jet. With St.X save time by landing closer to your final destination.** We guarantee maximum comfort, global management of your transfer, logistical support, 24h assistance 7 days a week. Everything is much simpler and more immediate.

PC-12

No

Crafted in Switzerland

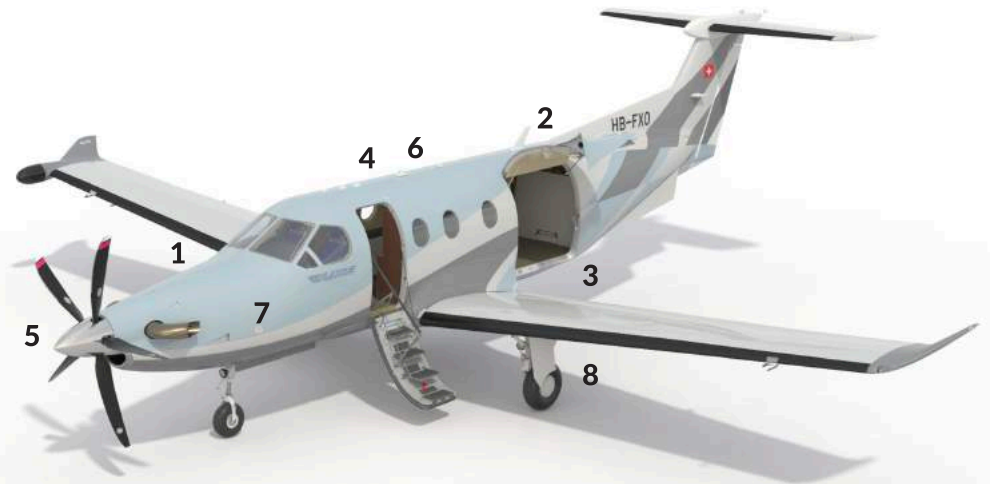

The world's greatest single engine

To offer maximum performance and flexibility, we offer the innovative **Pilatus PC-12 NG private jet, designed, developed and produced in Switzerland.** A single engine with very high performance and with the exclusive ability to use short tracks (half of a similar aircraft of the same size). Able to operate from runways made of dirt, gravel, and grass, the PC-12 NG can take you to places you've never been in a business aircraft before. The **PC-12 NG** can use **+84%** of tertiary airports compared to similar aircrafts which means **unbeatable proximity to your final destination.** The **PC-12 NG** has a high load capacity and offers a very high standard in terms of safety. Suitable for business or pleasure trips it is configured to carry **up to 8 passengers plus 2 crew members.**

Swiss
Quality

1. Honeywell Primus Apex Integrated Avionics System for easy single-pilot operation
2. Large cargo door (4 ft. 5 in × 4 ft. 4 in / 1.35 m x 1.32 m) on left-hand side of fuselage
3. Flat floor cabin which can easily be adapted for various uses
4. Spacious and pressurized cabin with 330 ft³ (9.34 m³) cabin volume and space for up to 9 passengers
5. Hartzell five-blade composite propeller
6. Interior design by BMW Design works USA
7. 81,200 shp Pratt & Whitney Canada PT6A-67P turboprop engine (1,845 shp thermodynamic power)
8. Landing gear designed for unimproved field operations

High Level
Performances

The Pilatus PC-12 NG has gained a reputation for outstanding versatility, performance, reliability and operational flexibility. As such, it is one of the most popular turbine-powered business aircraft on the market today. Whether it is the large cabin, single pilot operations, long range, high speed, short-field capability, or precision Swiss engineering and construction, **customers find the perfect balance of features to serve their needs in the PC-12 NG.**

Take-off distance

Over 50 ft. Obstacle (MTOW) 2.600 ft. 792 m

Rate of climb

Sea Level (MTOW) 1.920 fpm 585 m/min

Time To Climb Sea Level To FL 250 20 min (MTOW)

Cruise

Maximum Cruise Speed (FL 220) 285 KTAS 528 km/h

Payload / range

Max Payload (2.257 lb.) 651 nm 1.206 km

6 passengers (1.200 lb. payload) 1.460 nm 2.704 km

4 passengers (800 lb. payload) 1.617 nm 2.995 km

Altitude

Max Certified Altitude 30.000 ft. 9.144 m

Landing distance

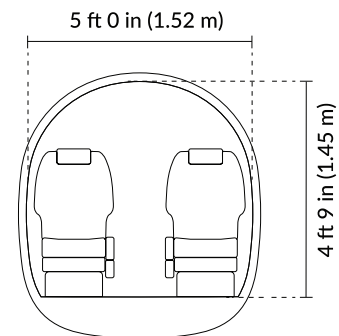

Over 50 ft. Obstacle 2.170 ft. 661 m (MLW, no reverse)

Stall speed

(MTOW) 67 KIAS 124 km/h

Interior Configurations

Go Ahead and Stretch Your Legs

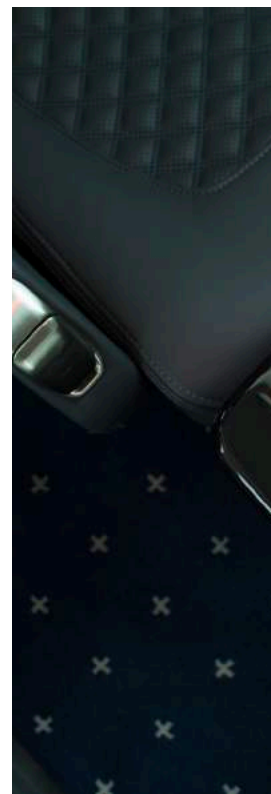

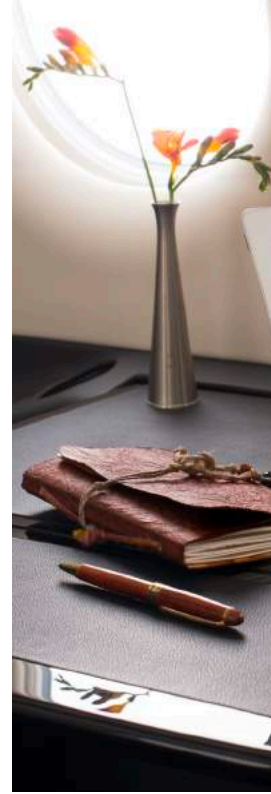

Welcome to the “Pilatus Class”. The PC-12 NG’s cabin volume is greater than most turboprops and medium sized business jets costing often twice as much. Executive seats engineered for comfort and in-flight access to the baggage compartment set the stage for any trip – quick hop or long haul. A spacious, discrete lavatory is integrated into the forward portion of the cabin offering complete privacy without infringing on baggage space

Cabin Space

Max Passengers
6/8 + 2 PILOTS

With 330 cubic feet (9.34 cubic meters) of cabin volume, you will enjoy more space than business jets costing twice as much. A flat floor gives your passengers more comfort and gives you the ability to easily load just about any cargo you can fit.

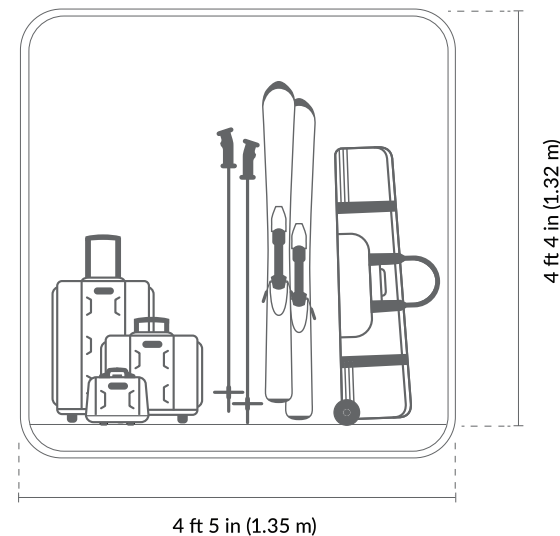

Welcome on board for
those who don't travel light

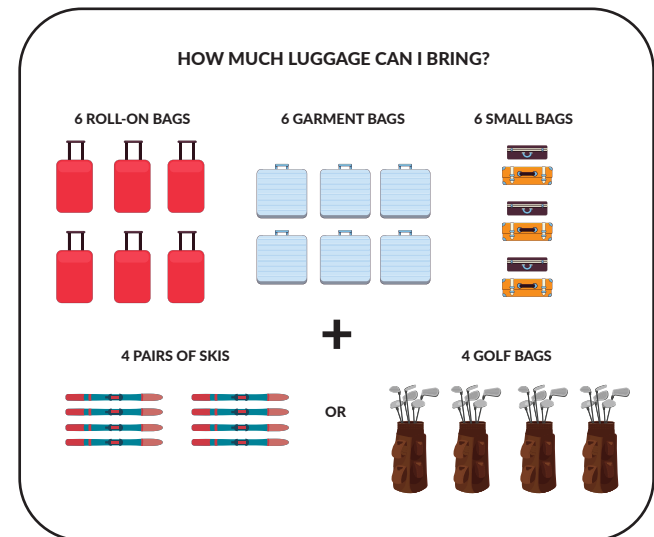

Big things can be expected from such a big door. The PC-12 NG is the only business aircraft to feature a pallet-sized cargo door as standard. But without practical cabin volume, the door is simply a grand opening. The PC-12 NG features an impressive cargo space that takes advantage of the flat floor architecture within, providing a multitude of uses.

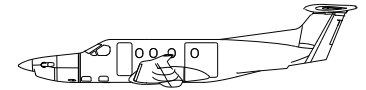

In addition, **your baggage is easily accessible during flight in the heated and pressurized cabin section.** The generous center of gravity (CG) range of the PC-12 NG coupled with the quick-change interior contributes to its legendary versatility. So, on your next trip, you may not have to choose what you bring - just take it all.
