

# High-quality Care

Rapid, global response medical repatriations with a guaranteed bed-to-bed service.

**CAPITAL**<sup>25</sup>  
YEARS  
**AIR AMBULANCE**

## Bed to bed.

### The ultimate care package.

Rapid, global-response medical repatriation services, providing the ultimate bed-to-bed service and guaranteed peace of mind, using our critical care-equipped fleet and highly trained medical teams.

Capital is the largest air ambulance provider in the UK. We offer the most comprehensive and high-quality service in the sector, our medical teams accompany patients throughout their journey and transfer them seamlessly to a UK hospital - providing an unparalleled quality and continuity of care, from start to finish.

## Unique. Experienced.

### Professional standards. Peerless service.

A British business with a 26-year pedigree, Capital is accredited by EURAMI to the highest levels and registered with the Care Quality Commission. We offer comprehensive global coverage with our long range fleets, in partnership with other high-quality providers, such as Africa's AMREF Flying Doctors.

Our fleet of King Air and Lear Jet aircraft are equipped with state-of-the-art equipment, enabling us to care for the full spectrum of medical conditions. Our dedicated, professional and highly experienced medical teams are selected according to the requirements of each patient. The medical team accompanies each patient throughout their journey, as standard.

We have extensive experience in a number of specialist areas, such as the transfer of patients on ECMO support and critically unwell neonatal patients; ensuring they are transferred safely, and without delay, to specialist hospital care.

## Preferred Partner.

Working in partnership with the **NHS**

Led by our Chief Medical Officer Dr Simon Forrington, a consultant with Manchester University NHS Foundation Trust and the North West Air Ambulance, the Capital Air Ambulance team works closely with the NHS to secure a bed at the destination hospital, guaranteeing a smooth transfer and the highest levels of uninterrupted care.

Our consultant-led service includes NHS-trained medical professionals and multilingual case handling. Capital offers adult, neonatal and paediatric specialities and we fly with critical care capability as standard.

In addition to our comprehensive bed-to-bed service, Capital Air Ambulance provides hospital-to-hospital transfers, by air or ground ambulance, alleviating pressure on NHS ambulance services and medical teams.

## Swift. Seamless.

Ready to help uninsured travellers.

When travellers become injured or ill without insurance, Capital Air Ambulance is on standby to assist tour operators, 24 hours a day.

We are on the Foreign and Commonwealth Office's list of approved air ambulance providers and accredited to the highest standards. We'll help your clients through the process of arranging a high-quality medical assistance flight, giving a clear idea of all costs involved, to help them make an informed decision.

## The Journey.

Capital's ultimate, bed to bed, care package.

- Day or night, the moment you call the 24/7 Capital Air Ambulance support team, our service swings into action to bring your client home.
- You can reassure them that help is on its way as we immediately step in to arrange a seamless repatriation flight for the patient.
- Our medically-equipped King Air 200 and Lear Jet 45 aircraft will bring them safely and swiftly to a UK hospital, accompanied by a highly qualified medical team throughout the journey.
- Our experienced, multilingual team will take over negotiations with the medical staff at the hospital where the patient is being treated, making all necessary preparations for the transfer - including arranging a hospital place here in the UK.
- All Capital Air Ambulance flights offer a full on board medical team, tailored to each patient's needs, including nurses, ICU specialists and anaesthetists.
- Unique in the sector, we operate a fleet of ground ambulances too - guaranteeing a swift, high-quality, transfer from the tarmac as soon as they reach the UK.
- The medical team remains with the patient at all times, until a detailed handover has been delivered and the patient is admitted to a ward.
- This comprehensive, bed-to-bed service is provided as standard. Should you require a tailored package, such as a medical escort for a client on a commercial flight, specialist neonatal transfer, or there are multiple patients to be transferred, please ask about our bespoke services.
